SECTION 1.0: EXECUTIVE ABSTRACT

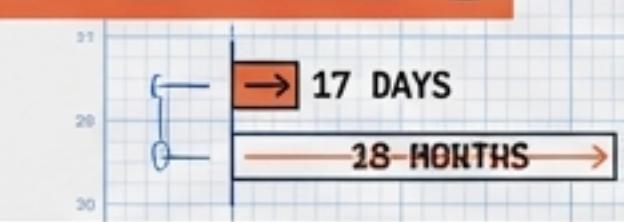

OPERATIONAL RESULT

The Claude Intelligence Hub is a centralized system acting as a Git-backed memory, personality layer, and skill library. It functions as a single source of truth that eliminates repetition, preserves knowledge, and standardizes AI behavior across all projects.

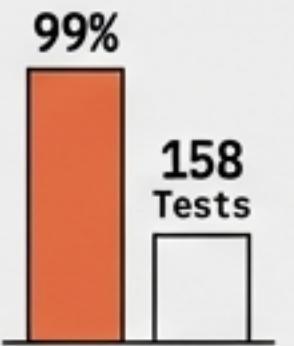

“AI didn’t replace expertise—it accelerated execution.”

TECHNICAL CAPABILITIES

pbi-query-structure:
Instant structure mapping

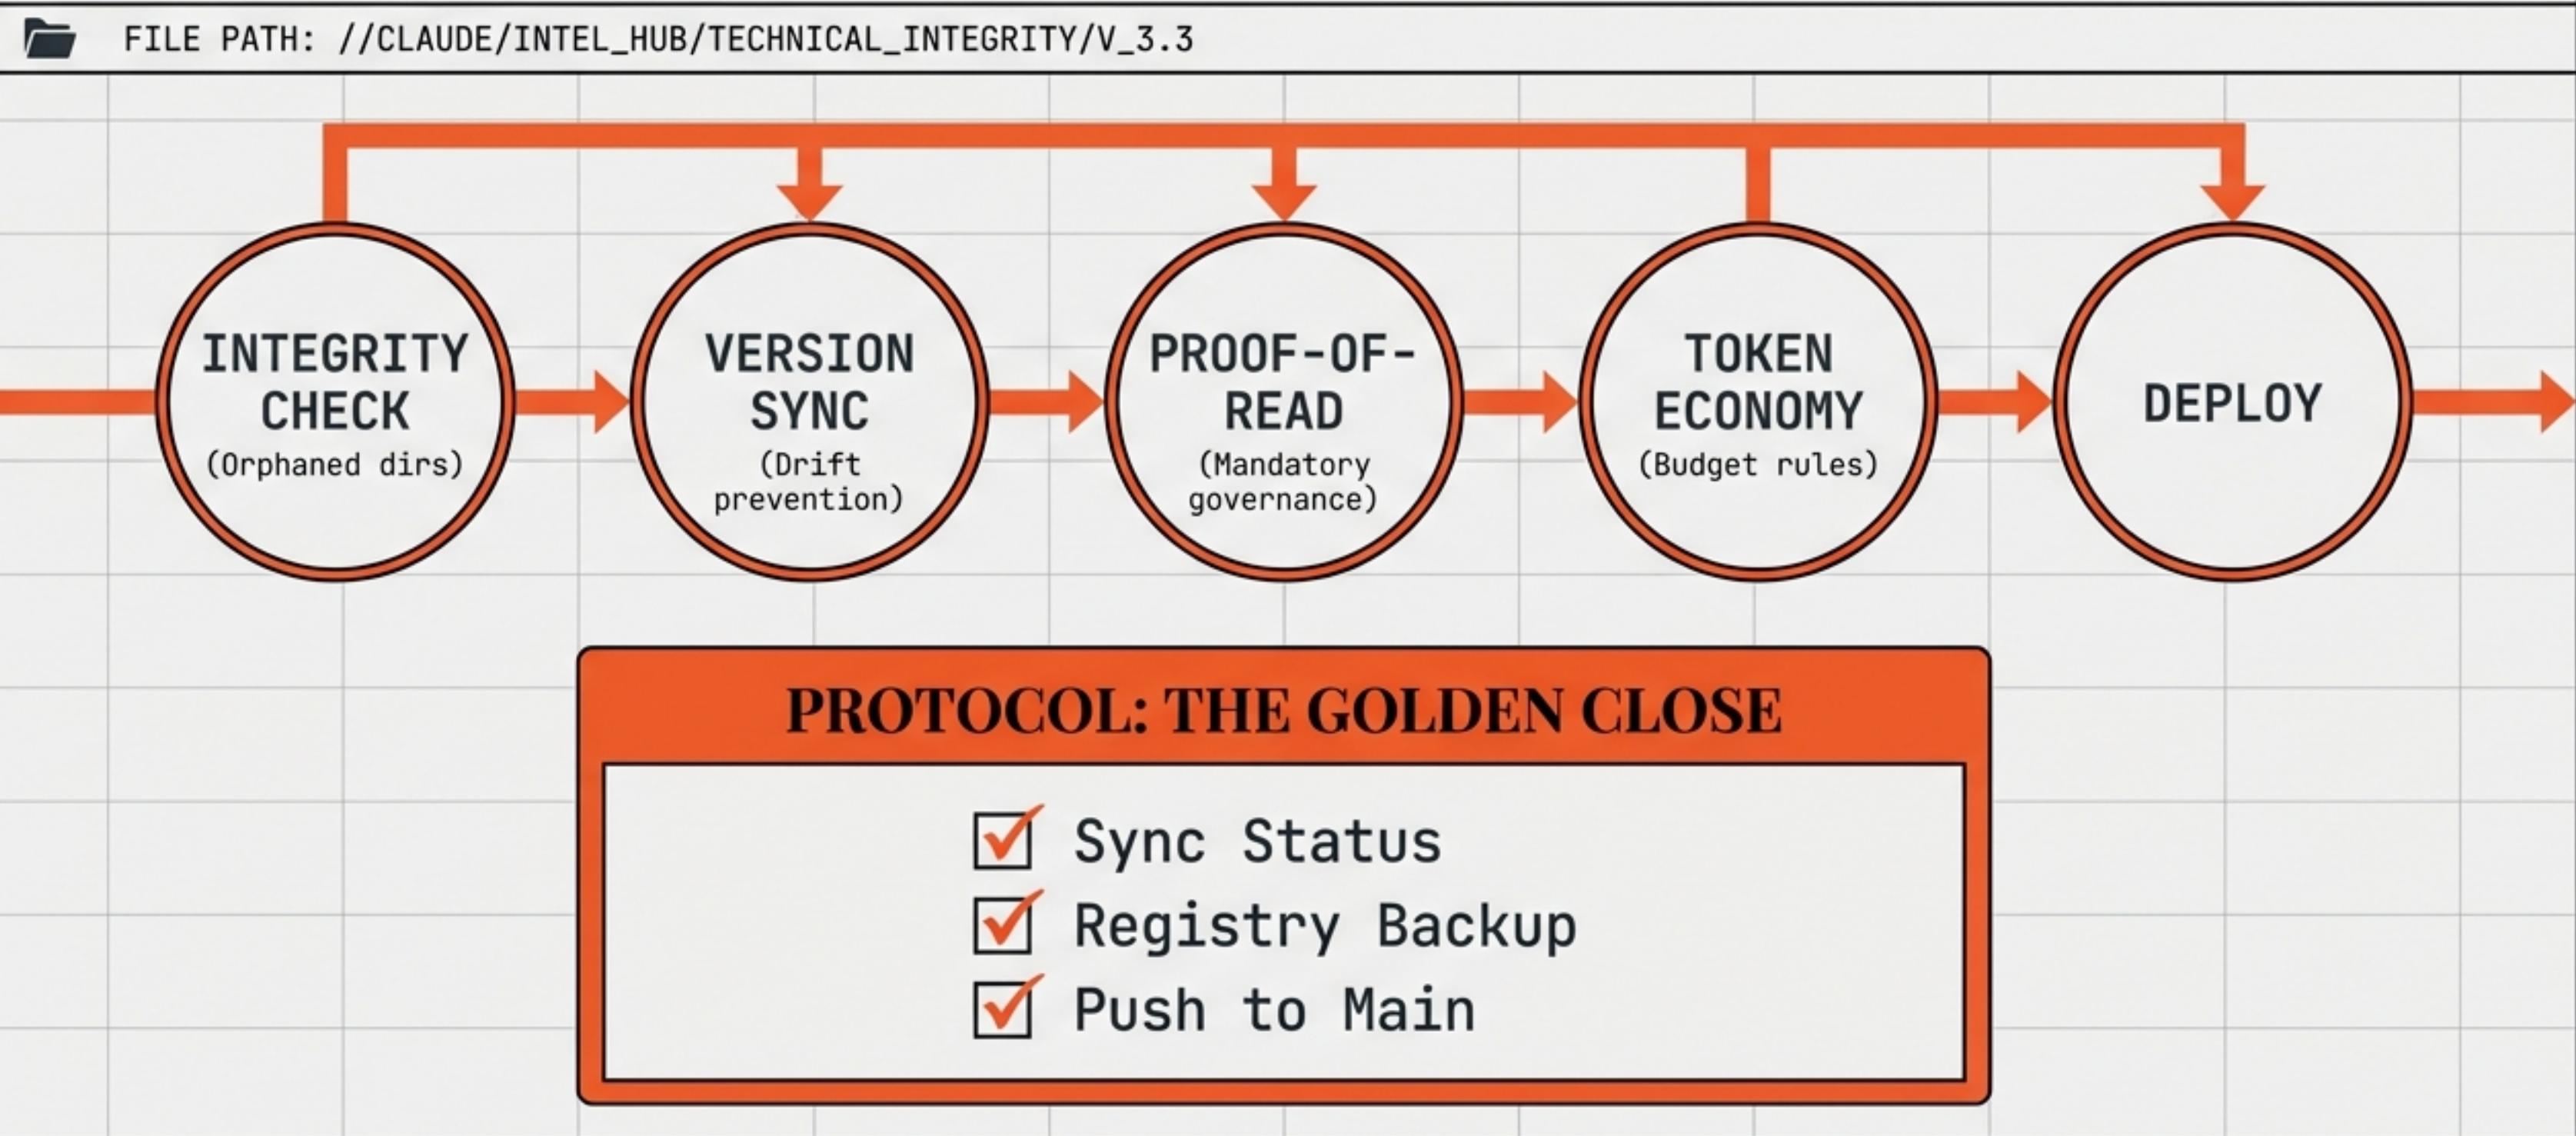

pbi-add-measure:
DAX insertion with validation

pbi-index-update:
Auto-regeneration of indices

FISCAL IMPACT: Module pays for entire system setup in < 1 week.

SECTION 3.3: TECHNICAL INTEGRITY & GOVERNANCE

SECTION 4.0: DEPLOYMENT AUTOMATION
